You have been invited to judge this BSI-listed breed:

Breed

at the dog show:

Date

Venue

Speciality show

Joint show

National show

International exhibition

This breed is listed in the BSI due to known predispositions to disease and/or the risk of exaggeration of morphological characteristics that may be relevant to health.

Did you receive written information about the BSI prior to the show?

YES

NO

We ask you to study the entire BSI document, in particular the specific text relating to the breed(s) you will be judging, as well as the introductory text for the relevant FCI group. In order to verify the accuracy of the breeds listed in the BSI and the risk areas identified, we ask you to answer the following questions.

The number of dogs of the breed in question that you have judged:

Number of dogs

Do you consider it appropriate that this breed is listed in the BSI?

Please consider this question from the perspective of your overall experience with this breed, and not just the current show.

Please tick the box and add your comments!

Yes, it is appropriate for this breed to be listed.

No, it is not appropriate for this breed to be listed.

I don't have an opinion at the moment.

Have you noticed any of the problems and risk areas mentioned for this breed?
